

Eqaim Fullstack Challenge

Tech Stack (non-negotiable)

- Typescript [use custom types and interfaces instead of "any" everywhere]
- NextJS / ReactJS (frontend)
- NodeJS + express (backend)
- SCSS
- DB - MongoDB

Figma designs

<https://www.figma.com/file/8TVCHh3X0YUI636AZXWaWj/product-feedback-app?type=design&mode=design&t=IDleKLS8Mi4NP8jT-1>

How to submit

Share the github repository URL with us and update the **README-template.md** file with right instructions and steps to run the project on the local machine.

Time

2 days (48 hours)

Note

- Zip file URL - [https://drive.google.com/file/d/1QIFuKoMp_IHWjdaBPRJ0W2Sn8GcOktu7/view](https://drive.google.com/file/d/1QIFuKoMp_IHWjdaBPRJ0W2Sn8GcOktu7/vi<u>ew</u>)
or (try any one) [https://drive.google.com/file/d/1QIFuKoMp_IHWjdaBPRJ0W2Sn8GcOktu7/view?usp=sharing](https://drive.google.com/file/d/1QIFuKoMp_IHWjdaBPRJ0W2Sn8GcOktu7/vi<u>ew</u>?usp=sharing)
- The **README.md** file inside the zip has all the information you need to get started. It also has the assets and html starter code.
- We provide the data in a local **data.json** file, so use that to populate the content of your db.
